COUNCIL ENDORSES POLICIES ON FACILITIES USE, EQUAL ACCESS TO EDUCATION

At its January meeting, the College Council gave official approval to a new College policy governing use of Plattsburgh State facilities by outside organizations, and endorsed in principle a College policy to guarantee equal access to higher education for minority students.

The new College policy governing the use of facilities for activities other than regular instructional programs was formulated by a committee chaired by Facilities Planning Coordinator J. Derek Allan. The purpose of the policy is to encourage rather than to limit or preclude the use of University facilities for educational, non-profit activities within the scope of University functions, including broad public service.

The policy sets down specific guidelines, including contract stipulations, that must be followed by organizations requesting the use of College facilities. According to the policy, requests for the use of facilities should be directed through Allan's office.

The Plattsburgh program for equal access to higher education, prepared by the College's student affairs staff and presented to the College Council by Vice President Willard C. Flynt, reaffirms Plattsburgh State's commitment to recruit, admit and retain students from minority groups, and recommends specific assignments to campus offices to insure that that commitment is met.

STATUS OF NEW LIBRARY EXAMINED

Plattsburgh State administrators have been assured by North Country Senator Ronald B. Stafford (who is also chairman of the State Senate's Committee on Higher Education) that he is working actively to ensure that the proposed new \$6-million Plattsburgh State library will be included in the Governor's supplemental budget.

The new Plattsburgh State library facility (the need for which was stressed by the 1971 Middle States Association accreditation team) is characterized as "one of the top priorities of the State University of New York," and was recommended by the SUNY Trustees for inclusion in the SUNY budget prepared by the Governor's Budget Office. However, the library did not appear in the Governor's operating budget.

The architect's drawings of the proposed new building are complete and ready for advertisement of bids.

The College's Feinberg Library was opened to use in 1961 and was planned to shelve approximately 75,000 books. It is now stocked with 250,000 volumes--well over three times its capacity--and many abstracts and bound periodicals issued prior to 1960 have been moved to other campus facilities.

STUDENT SENATE ADOPTS STATEMENT ON EVALUATION OF TEACHING EFFECTIVENESS

At its regular meeting Tuesday evening, the Student Senate adopted a motion from Senator for Academic Affairs Sussy Komala stating:

"That until such time that a single form of student evaluation be produced that will effectively act as the official form of input to faculty evaluation, all other forms of student evaluation should be considered as the principle measure in teaching effectiveness."

The motion followed student action during the past week in behalf of Mrs. Sharon Giskin, an instructor of English whose contract was not recommended for renewal by the English Department evaluating committee. Mrs. Giskin and the students working in behalf of her reappointment allege that student evaluations of her teaching effectiveness were not taken into proper account by the evaluation committee. Additional materials in Mrs. Giskin's file will be evaluated on or after February 28 (according to a ruling by a campus grievance officer) and Mrs. Giskin may add materials for evaluation to her personal file prior to February 28.

The Senate will meet in special session today to act on a statement in support of Mrs. Giskin from its Academic Affairs Committee. According to a motion passed Tuesday, that statement of support, if approved today as an official Senate statement, will be directed to the English Department evaluation committee.

PROGRESS REPORTED IN AFRO-AMERICAN STUDIES

Campus committees working toward the development of a program in Afro-American studies report that a Center for the program is being established and that a search is being conducted for a program coordinator.

A campus committee working under the chairmanship of Vice President Willard Flynt has determined that Hawkins Hall 052 (adjacent to Project New City headquarters) is the most suitable available location for establishment this semester of a Center for Afro-American Studies. That facility is now being renovated and is expected to open within a few weeks with offices for the Coordinator of Afro-American Studies and a Black counselor, as well as seminar and lounge areas.

Dr. Nicholas F. Troisi, director of continuing education and chairman of the eight-member search committee seeking and reviewing applicants for the position of Coordinator of Afro-American Studies, reports that 35 applications for that position have already been received. The deadline for submission of applications is April 1. Minimum qualifications for the position are a masters degree with emphasis on Afro-American studies and experience working in a Black Community. The coordinator will be responsible primarily for recruiting faculty for Afro-American studies, advising students interested in Afro-American studies and teaching Afro-American studies courses.

Says the dean, "I hope that through this discussion I can help to acquaint students with the many opportunities that are available for challenging a course, doing independent study, enrolling in a course for research credit, and for demonstrating proficiency in a particular course or discipline outside of the traditional 'sign up for the course and take the exam' routine.

"DISGUSTING"? -- AN EDITORIAL

With specific references to a St. Patrick's Day incident in downtown Plattsburgh, an editorial in yesterday's edition of the **Press-Republican** expressed that newspaper's disappointment with "the young people at Plattsburgh State University College." Said the newspaper editorial, "we're rather disappointed in the many young people at Plattsburgh State who became part of a drunken, glass-throwing crowd that disrupted order in our community."

In short, in the opinion of **Weekly**, the **Press-Republican** editorial laid the blame for Saturday's incident in downtown Plattsburgh squarely and solely on "several hundred" Plattsburgh State students. According to our sources -- which include police, students and unbiased observers from the community -- there were numerous individuals who are not Plattsburgh State students who were involved in the propagation of Saturday's incident.

On the basis of that information, we conclude that yesterday's **Press-Republican** editorial reflects an unjustifiable bias.

If, as the **Press-Republican** reports, Plattsburgh students Saturday "fed the flames of misunderstanding and mistrust by the Over-Thirty generations," then we ask whether editorials such as the one which appeared yesterday are designed to fan those flames into an unfair public prejudice.

Saturday's incident was "disgusting" indeed. Disgusting in a much different and far more lasting and damning sense is the careless attack which the **Press-Republican** yesterday launched against the students of Plattsburgh State.

SARANAC DINING HALL TO CLOSE WEEKENDS

To offset spiraling increases in food prices, the executive committee of the Plattsburgh Faculty-Student Association voted Tuesday to close Saranac Dining Hall on weekends (from 2:30 p.m. Friday through Sunday evening) beginning March 30 and continuing through the remainder of the spring semester. The committee expressed the belief that students will recognize the fact that escalating food prices nationally forced the dining hall closing. Full dining hall service will continue through the weekends at Clinton Dining Hall and the Stage XIV Dining Hall.

Before acting to close Saranac Dining Hall, the executive committee carefully considered what it felt to be the only other three alternatives which would have alleviated the problem, and they were:

- 1) serving meat as a main dish for substantially fewer meals;
- 2) abolishing all "seconds" for all meals;
- 3) raising the price of meals for the last quarter of the semester.

HEARING SCHEDULED MONDAY FOR MRS. GISKIN

A "Step II" grievance hearing in the case of Mrs. Sharon Giskin has been scheduled for Monday (March 26) at 9:30 a.m. in the Albany office of Caesar J. Naples, the assistant vice chancellor for employee relations.

Background Information

Mrs. Giskin is grieving an English Department evaluating committee decision not to recommend her for reappointment, and her grievance is based on claims that (1) she was discriminated against on the basis of sex and that (2) she was not given enough time to respond to the draft recommendation of the evaluating committee.

(over)

The decision at Step I found no basis for her charge of discrimination. The decision, however, recommended that Mrs. Giskin be given an additional two weeks to review her personnel file and add materials to it, and that she then be given an additional evaluation in accordance with the regular English Department procedures. President Angell accepted that recommendation and directed the English Department to inform Mrs. Giskin of the additional time.

On February 27, the English Department met at the request of its evaluating committee and rejected the President's directive calling for another evaluation. Also on February 27, at the request of Mrs. Giskin, the Senate Professional Association Grievance Committee appealed Mrs. Giskin's grievance to Step II (Albany) on the basis that her grievance claims (discrimination, not enough time to file a response) and redress (essentially, reappointment) had been denied at Step I.

Since a Step II finding would in essence override any action at Step I, President Angell temporarily withdrew his directive to the English Department.

THREE SIOUX CHIEFS HERE TOMORROW

Three Oglala Sioux Chiefs -- Chief Fools Crow, Chief Kills Enemy and Chief White Hawk -- will be on campus tomorrow under the auspices of the Speakers Forum to discuss the history of the American Indian and white relations and to explain the situation at Wounded Knee, South Dakota. BLACK ONYX WITHDRAWS REPRESENTATIVES FROM ADVISORY COMMITTEES

The Black Onyx Third World Front has announced that its members will not attend any more meetings of the committees which President Angell established to prepare recommendations relative to suggestions made in the Report of the Summer Task Force on Black Studies. In memoranda to the chairmen of those advisory committees, the Black Onyx Third World Front cited what it "consider(s) to be the victimization of Black Students on this campus regarding the recent event of February 13," and said that it "cannot and will not support the administration in its dealings with Black People" until the President rejects the recent recommendations of the College Hearing Board in a case involving the alleged disruption of a February 13 meeting of the Student Senate. (Trustees regulations do not permit a campus president to reject the recommendations of a hearing committee unless he has "new findings based on substantial evidence in the record".)

Last fall (see INSIGHT, Vol. 5 No. 3) President Angell appointed his top administrative officers to the task of forming advisory committees to study and make recommendations pertinent to the Report of a Summer Task Force on Black Studies. Since that time those committees (whose memberships included, among others, representatives of the Black Onyx Third World Front) have met regularly and reported the following accomplishments:

- approving four Black Studies courses for the current semester;
- scheduling several Black Studies courses for 1973-74;
- exploring various proposed means for financing the Black Studies program;
- selecting 052, Hawkins Hall, as the most suitable available location for establishment this semester of a Center for Afro-American Studies. (That facility was renovated for use as a Center for Afro-American Studies, but Black Onyx Third World Front said in an April 4 memorandum to Vice President Willard Flynt that it was not acceptable as a cultural center);
- seeking and reviewing applications for the position of Coordinator of Afro-American Studies;
- essentially re-establishing the Plattsburgh Commission on Human Rights and recommending to Mayor Roland St. Pierre nine members for that commission.

SENATE CONCLUDES BYLAWS DISCUSSIONS; AIMS FOR SPRING TERM VOTE

Although lacking a quorum by one representative, the Faculty Senate Tuesday concluded discussion of the draft revision of the Faculty Bylaws. Acting as a Committee of the Whole, the Senate moved to expedite a spring term vote on the Bylaws by the faculty at-large. However, before the Bylaws can be presented in referendum before the total faculty, they must receive formal Faculty Senate approval. Therefore, a telephone poll of absent Senators was agreed upon.

In other business, the Senate (as a Committee of the Whole) voted to ask its chairman to appoint a special ad hoc investigative committee to review the case of an alleged violation of approved Faculty Senate policy.

MISS SAMMIE IVES DIES IN ALBANY HOSPITAL

Miss Sammie Ives, assistant professor of education, died Tuesday at St. Peter's hospital in Albany. She resided in Albany.

Miss Ives, 57, joined the College faculty in September of 1970. She was a supervisor of student teachers in the Albany area, and she was affiliated with the Heldeberg Institute for Lighthearted Learning in Voorheesville. She was especially noted for her creative approach to teaching, and taught many workshops in creative teaching throughout New York State.

Upon learning of Miss Ives' death, College President Dr. George W. Angell said:

"Sammie Ives was a member of the academic community for a relatively short time and, for the most part, her responsibilities kept her in the field as supervisor of some of this institution's most promising aspirants to the teaching profession. However brief her tenure, Miss Ives established a reputation as one of the most creative, energetic and responsive educators on the College faculty. Her enthusiasm for innovation, for making learning fun for children, will be sorely missed by the students she supervised, the youth who will benefit from her techniques in the long run, and by her colleagues, particularly those in the Faculty of Professional Studies."

FACILITIES PLANNER RESPONDS TO CHARGES OF POLLUTION BY COLLEGE

A Cardinal Points article (May 1, 1973, p. 7) charging that "... Plattsburgh State's pollution of the Saranac River goes relatively unnoticed and uncontrolled," does not represent all the facts in the case, according to Facilities Planning Coordinator J. Derek Allan. Allan explained (in a statement issued too late for submission for the May 8, final edition of Cardinal Points) that the College connects all of its waste lines into City owned sewer lines. Because the City system presently combines storm water waste and sanitary waste in single lines, sanitary waste from the College (and the other residents of Rugar Street) may enter the Saranac River via overflow storm lines during periods of high run-off.

To say that a solution to the problem is "not at hand" is incorrect, says Allan. He explains that two years ago a trunk sewer line was installed beneath Rugar Street to carry wastes from the Imperial Paper Company and the College directly to the new sewage treatment plant which is now under construction by the City. When that treatment plant becomes operational (within a few weeks), the new Rugar Street trunk sewer line should effectively eliminate the Saranac River pollution described in Cardinal Points.

Insights of October 30 and November 25, 1970, give further descriptions of the Saranac River pollution problem and of the College's contribution of more than \$300,000 toward a remedy to that problem.

MEETING OF VOTING FACULTY SET FOR MONDAY

WEEKLY reminds its voting faculty readership that President Angell has called a meeting of the faculty for Monday (the 21st) at 4:15 in room 200 of the Yokum Building. The purpose of the meeting is to provide an opportunity for discussion of comments and suggestions relative to the proposed revisions of the Bylaws as presented by the Faculty Senate's ad hoc committee on the revision of the Bylaws.

FOUR 'NEW BUSINESS' ITEMS HIGHLIGHT TODAY'S FACULTY SENATE AGENDA

The Faculty Senate, whose time has been spent in recent months on the necessary review of proposed revisions to the Bylaws, meets this afternoon to attempt to resolve four important items of new business. The first item up for consideration recommends alteration of the existing "W" policy and urges that the proposed change become effective immediately; the second recommends establishment of a new grade, "IP," signifying "in progress." Other agenda matters concern a proposed admissions/matriculation policy for graduate studies, and a recommendation regarding the summary report of the President's Commission on Educational Priorities. The four resolutions on today's agenda appear, in detail, in the Senate agenda for May 8. The Senate meets at 4:10 in room 116 of the Myers Fine Arts Building.

FEDERAL FINANCIAL AIDS DOWN APPROXIMATELY 38% FOR ACADEMIC '73-'74

According to a memo to President Angell from Financial Aids Director Jane Minnier, the total dollar value of federal financial aid to student programs will decrease by approximately 38 per cent next academic year. Federal financial aid programs on campus (including the National Direct Student Loan, the Supplemental Educational Opportunity Grant and the College Work Study Program) totaled \$483,074 during the 1972-73 academic year. Mrs. Minnier's memorandum reports that predicted allocations to those three programs during 1973-74 total only \$300,000.

Because of an anticipated 28 per cent reduction in Work Study funds available next year, the Work Study program will be suspended for the summer months to allow for the most efficient use of available funds during the regular school year.

President George W. SENATE ADOPTS POLICY RECOMMENDATION INCREASING GRADUATION REQUIREMENTS

The Faculty Senate passed a policy recommendation Tuesday which, if approved by the President, would require each undergraduate to earn two academic credits in the physical education basic instructional program. The policy recommendation, and an amendment to it which requires B.A. or B.S. candidates to complete a minimum of 122 academic credit hours (two more hours than the current minimum common requirement) to qualify for a degree, carried by voice vote following some 45 minutes of discussion. The policy would eliminate competency requirements in several specific areas.

In other business, the Senate passed without discussion a policy recommendation concerning the use and protection of the Rugar Woods area. Also, the Senate adopted a resolution concerning the summary report of the President's Commission on Educational Priorities (see item 6.4 on the agenda for the May 8th Senate meeting), and it approved changes in the Bylaws revision suggested at last Monday's general meeting of the faculty.

The Bylaws are now being put to a vote by the faculty at large. Ballots, with a cover memo itemizing corrections to the Bylaws document, were in the afternoon mail on Wednesday. The deadline for returning the ballots is Saturday. A majority vote of the total faculty or a two-thirds majority of those casting ballots is required to ratify the revised Bylaws.

Last Thursday the Senate adopted a resolution amending the ten-day phrase in the "W" policy to mean calendar days; it approved a recommendation that a new grade, "IP", be established; and it tabled a resolution concerning an admissions/matriculation policy.

TRUAX APPOINTED DIRECTOR OF ADMISSIONS

David E. Truax, who joined the College professional staff as an admissions counselor in September of 1965, has been appointed director of admissions, effective May 31. Truax has been acting director of admissions since November 1972 when Franklin Converse retired from that position, and he also served as acting director when Converse was on leave of absence from July 1970 through January 1971.

Truax was recommended for the appointment by a three-member campus search committee chaired by Dr. Leroy Piccard. Dr. Piccard explained that the committee received approximately 50 applications for the position after advertising it nationally.

Truax holds the bachelor of science degree from Cortland State University College and a masters degree in guidance from Plattsburgh. Before joining the College he was a physical education instructor, coach and part-time counselor for four years at Keeseville Central School.

As director of admissions, Truax will supervise a staff of three counselors and three secretaries who annually process approximately 6,000 applications for admission to the College.

FOUR FSA MEAL PLANS FOR 1973-74 UNVEILED

The Faculty Student Association has selected the four most popular meal plans from five voted on in a student poll conducted at campus dining halls by the Student Association on May 14, and will offer students residing on campus a choice among those four plans next academic year. Approximately 800 students voted in the May 14 poll, according to FSA Executive Director John Harrison, and their four most popular choices (the choices to be offered next year) were:

Meal Plan I, which provides 20 meals per week including breakfast, lunch and dinner Monday through Saturday, and brunch and dinner Sunday. Tickets in this plan are not transferable, and are valid only in campus dining halls. The plan will cost \$682.00 per year or \$341.00 per semester, which is an average of \$3.04 per day, and is recommended by FSA as the best nutritional and dollar value.

Meal Plan II, which provides the same meals (20 per week) as Plan I. Meal tickets in Plan II are transferable, and the ticket value may be used to purchase food in the snack bar or in the college center cafeteria. Plan II will cost \$818.00 per year or \$409.00 per semester, which is an average of \$3.65 per day.

Meal Plan III, which provides 14 meals per week including lunch and dinner Monday through Saturday and brunch and dinner Sunday. As with Plan II, meal tickets in Plan III are transferable and ticket value may be used to purchase food in the snack bar or college center cafeteria. Plan III will cost \$646.00 per year or \$323.00 per semester, which is an average of \$2.88 per day.

Meal Plan IV, which provides 70 per cent of the breakfasts, 70 per cent of the lunches and 70 per cent of the dinners offered in the campus dining halls. This plan is recommended by FSA for students who feel they may be away from the dining halls 30 per cent of the time during which each meal is served. Meal Plan IV was the most popular among May 14 voters, and received 43.3 per cent of the total vote cast. The meal tickets in the plan are transferable and may be used to purchase equivalent value foods in the snack bar or college center cafeteria. Meal Plan IV will cost \$573.00 per year or \$286.50 per semester.

All four of the meal plans to be offered next year provide for limited second helpings on all items served, and none of the plans provides refunds on unused coupons.

PLATTSBURGH STATE

July 18, 1973

THREE RECENT APPOINTMENTS ANNOUNCED

Vacancies in two newly created positions and one formerly held position on the College's non-teaching faculty have been filled by recent appointments to the positions of assistant to the president for employee relations, director of instructional resources, and coordinator of general studies.

Edward P. Kelley, Jr., a May graduate of the School of Law at SUNY Buffalo, has been named to the newly created position of assistant to the president for employee relations. Kelley will be responsible for coordinating and supervising student, faculty and employee grievance procedures on behalf of President Angell, for acting as liaison between the President's Office and all employee associations, for advising the personnel director on legal and technical responsibilities in negotiated contracts and state policies, for advising campus officers and organizations on legal matters and questions and for acting as liaison between the campus and the State University Office of the Counsel. During his last year at Buffalo, Kelley served as a graduate assistant to the Vice President for Student Affairs and Services and was involved extensively in the preparation and revision of undergraduate and graduate school grievance procedures and in advising and reporting on professional and non-professional employee grievance proceedings.

Dr. Richard A. Stowe, chairman of instructional development and professor of education at Indiana University since 1969, has been appointed director of instructional resources, a position which Dr. M. Scheffel Pierce resigned to direct the local unit of Empire State College. The new director's doctorate is in instructional systems technology with a minor in educational psychology, and he has published numerous articles relating to instructional resources. At Indiana, as chairman of the instructional development area, he initiated a doctoral and specialist degree program which now enrolls more than 50 students.

Dr. Melvin W. Donaho, a member of the College's Department of Speech and Theatre since September 1969, has been chosen from among 45 candidates as coordinator of general studies for the Office of Continuing Education. Dr. Donaho will assume the position that Dr. Edward Redcay, professor emeritus, has held on a part-time basis for the past four years. His responsibilities, according to Continuing Education Director Dr. Nicholas F. Troisi, will be half-time teaching and half-time administrative. Dr. Donaho's professional vita, said Dr. Troisi, shows a continuing interest in the areas of general studies and continuing education. Since joining the Plattsburgh faculty, in addition to his regular course load, he has worked extensively with the personnel of Clinton Correctional Facility, the State Police and the United States Customs Service, and has conducted eleven workshops in leadership and communication at Plattsburgh Air Force Base. Dr. Donaho was re-elected to the presidency of the College's Faculty Senate in May.

COUNCIL RECOMMENDS NAME FOR SECOND SCIENCE BUILDING

The College Council has recommended to the State University Trustees that the College's new life sciences building, located on the corner of Broad St. and Draper Ave., be named in honor of Dr. William Beaumont. Dr. Beaumont was a famous American surgeon who lived and practiced medicine in Plattsburgh at different intervals during a career as an army surgeon.

Dr. Beaumont studied the processes of digestion by exhaustive experiments with a patient whose stomach was exposed by a gunshot wound (1832). Dr. Beaumont's work, Experiments and Observations on the Gastric Juice and Physiology of Digestion, is the greatest single contribution ever made to the knowledge of gastric digestion.

President Angell reported to the Council that Dr. Beaumont's name had the support of the Faculty of Science and Mathematics.

FOUNDATION BOARD CONVENES SUMMER MEETING

At its regular summer meeting, the Board of Directors of the Plattsburgh College Foundation nominated a new representative to its community membership, approved an amendment to its by-laws, clarified guidelines for membership in the President's Club and Century Club and recommended new procedures for solicitation of private funds for College programs.

John Zurlo, retired general manager of the Sheridan Iron Works in Champlain, has been nominated to a vacancy on the Foundation's membership of community representatives, subject to approval of the College Council.

A bylaw amendment approved by the Foundation Board clarifies the responsibilities of special campus scholarship committees to the chairman of the Foundation's student aid committee.

The board of directors also recommended that President Angell require College personnel to have plans for solicitation of funds from private sources for College programs approved by the President and reviewed by the executive director of the Foundation.

GHOST TOWN EXPLORERS INVITE STUDENT/FACULTY PARTICIPATION

Summer session students and faculty and their families have been invited to participate in a series of North Country ghost town explorations being organized by the Adirondack Archaeological Association. With financing from New York State's "America the Beautiful Fund," the local association plans to explore a different North Country ghost town each week from Thursday through Saturday until the end of August.

The first archaeological "dig," at Woods Falls near Mooers, is scheduled July 19- 22. Participants in the explorations are asked to bring their own food, but transportation can be arranged by calling Miss Connie Pope at the College Library (564-3181) or John Caramia, Jr., (563-2243). Arrangements to camp over at the site of the digs should also be made through Miss Pope or Caramia.
